## Thought Leaders in Education and Student Assessment

The National Assessment Governing Board is an independent, nonpartisan board that sets policy for the National Assessment of Educational Progress (NAEP), also known as The Nation's Report Card. For more than four decades, NAEP has served an important role in evaluating the condition and progress of American education.

This diverse group of leaders includes governors, state legislators, local and state school officials, educators, researchers, business representatives, and members of the general public. New members are appointed to the Governing Board by the U.S. Secretary of Education.

## New members will support innovative NAEP efforts:

- ★ Developments in computer-based assessments
- ★ First-of-its-kind assessment of technology and engineering literacy
- ★ Comprehensive education and outreach on NAEP and relevant assessment trends
